PORTWAY HOUSE
Providing Excellence In Care

Portway House Specialist Care Centre is a purpose-built facility situated on Newbury Lane, Oldbury.

We are registered with the Care Quality Commission to provide care to adults with palliative nursing needs, younger adults with brain injuries and residential supported living.

Our care focusses on the holistic needs and preferences of each individual, and our residents and their family members are very much involved in a package of care, tailored to specific needs.

At Portway House, we pride ourselves on redefining care, striving to make every day matter and count, and to be as good as it can be – our residents' wellbeing is at the heart of everything we do.

We are also immensely proud to work in collaboration with the Stroke Association, Headway Black Country and Dementia friends.

Our Values

Make it count. We help the residents to make the most of their time with us at Portway House, from personal care to our fine dining experience.

Make someone smile. At Portway House our team strive to make everyone smile and enjoy their time with us.

Make it safe. Whilst promoting independence, we ensure all of our residents' safety is paramount at Portway House.

We take a different approach to care, focussing on the individual needs, preferences and goals of our residents.

We encourage each and every resident - and their loved ones - to work in collaboration with our highly-trained team on an on-going basis, to design a personal package of care that is just right.

We look forward to welcoming you.

Providing Excellence In Care

Specialist Care Centre

Redefining Care

Welcome to Portway House Specialist Care Centre, we are situated in a central location, in Oldbury, and offer palliative and specialist care for those with disabilities.

There are three beautifully decorated suites within our Centre: the Tinsley suite, the Priory suite and the Crystal suite, all of which have the facilities and comfort to ensure a home-from-home ambience.

We want all of our residents to find their time here both engaging and relaxing, and our qualified personnel and facilities ensures this becomes a reality, from day one.
